[56D Mirfield \(7/10/62\)](#)
[56E Sowerby Bridge \(7/10/62\)](#)
[56F Low Moor \(7/10/62\)](#)

This was my first trip with Worcester Locomotive Society, and a trip to foreign soil, the Eastern Region. I remember Saturday trips were difficult as I had to get someone to cover my paper round. Just 13 years old I seem to recollect it was it was the society's policy for unaccompanied juveniles to be at least 13. It was also my first experience with the police, stopped in the Tything on my walk to the coach pick-up point. I was asked, 'what are you doing out at this time of the morning' and 'what have you got in that bag?' I explained where I was going, but had to empty the contents of my duffle bag, before being allowed to carry on. Who said stop and search is a new phenomenon!

The first shed to be visited was Grantham and visible straight away was my first 'Streak' 60014 Silver Link, in somewhat of a sorry state, stored with some of its connecting rods removed. Also stored there was 5 N2

0-6-2Ts that were officially withdrawn on the day of the visit.

There were many highlights for me on this trip, but, I remember being disappointed that diesels had ousted many first-line steam express locomotives. What would have it been like to have made the same visit just a couple of years earlier? However, I was grateful to see some classes that were soon to become extinct. I also remember I could not afford a camera to record any my visit, and was envious of those who were able to take photographs. Alas, now I have a digital camera that could have recorded every locomotive seen on the visit on just a couple of memory cards!

Shed allocations are based on my Autumn 1962 Railway Shed book updated with changes shown in Modern Railways September-December 1962 issues to the date of the visit. It is interesting that some 'duplicate' locomotives were seen, at first I thought I must have made mistakes, however, on closer examination most duplicates were seen on a 'foreign' shed on Saturday and then on their home shed on Sunday, assumingly having made a return trip in between time. The exception was a Peak D145, seen at three locations, testament to their high availability no doubt.

This report is in two parts, the first lists locomotives seen on shed or within its location, the second lists the total locomotives seen by class. The second part also acts as a reference with details of both home shed and where seen.

NOTE. This document contains 'Hyperlinks' they are coloured **Blue** they are NOT underlined as per normal practice because converting the file to a PDF format distorts the underlined text. For example, Click on a shed in the list above takes you to that shed. Within the Shed you can Click on a locomotive Class and you will be taken to Part 2 that lists all the locomotives seen in that class on this visit.

Allan Maund - 24 December 2007
a.t.maud@gmail.com

[Correction 24 Dec 2007 - Barclays diesel shunters, D2401 & D2409, wheel arrangement amended to 0-6-0 from 0-4-0, thanks to Phil Bullock for pointing out this error]

Part 1 Locomotives by Location

Key to Part 1

Locomotives are listed by class, 'visiting' locomotive home shed is shown in brackets.

(C) Locomotive 'cabbed'

(S) Locomotive stored

Part 2 Locomotives by Class

Key to Part 2

The Stanier 3 2-6-2T Class is used as an example to illustrate how sightings of locomotives are recorded in Part 2, as follows:

1. 40099 was seen at 24D its home shed (Where there is no shed code in brackets the locomotive was at its home shed)
2. 40112 was seen at 55H its home shed is 56C (Only 'visiting' locomotives have their shed code shown in brackets)
3. 40063 was withdrawn on 08 September 1962, it was seen at shed 26C and its last home shed was 26A
4. 40072 was withdrawn on 08 September 1962, It was seen on its last home shed 24D
5. Withdrawn Locomotives are listed last
